## **1. Aims**

Victoria Academies Trust Accounting Policy provides a comprehensive and robust framework for managing and overseeing the financial operations of the trust. This policy is crucial for ensuring compliance with statutory financial regulations and accounting standards specific to the education sector. It plays a vital role in fostering transparency and accountability in financial reporting, thereby assuring stakeholders including government bodies, trustees, staff, parents, and students of the trust's financial integrity. Central to this policy is the emphasis on effective budget management and control, which ensures that financial resources are allocated and used efficiently, aligning with the trust's educational objectives and strategic goals.

## **2. Legislation and statutory requirements**

The Education and Skills Funding Agency (ESFA) requires academy trusts to prepare their financial statements according to UK Generally Accepted Accounting Practice (UK GAAP) and this assumption must be disclosed in the notes to the annual accounts under the heading of 'accounting policies'.

The accounting policies have also been written in line with the requirements of:

- The Academies Trust Handbook
- The Academies Accounts Direction
- The Academies model accounts

The Academies Accounts Direction 2022 to 2023 is based on Charities Statement of Recommended Practice (SORP) 2019 and Financial Reporting Standard (FRS) 102.

A summary of the principal accounting policies, which are applied consistently, except where noted, is set out below.

## **3. Roles and responsibilities**

The board of trustees is required to approve the trust's accounting policies, which are incorporated within the annual report and accounts. As per the Academies Accounts Direction 2022 to 2023, the trustees also review these policies regularly, and only implement new policies where:

- This is required by FRS 102; or
- This is judged to provide reliable and more appropriate and relevant information

about the effect of transactions, other events or conditions that affect the financial position, performance or cash flows of the academy trust. The board of trustees ensures that the trust's accounting policies are being applied consistently across the academies within the trust.

## **4. Basis of preparation**

The financial statements are prepared under the accruals convention using historical cost as the basis for asset evaluation. In accordance with requirements, the financial statements reflect that the trust is a public benefit entity and contain a balance sheet, a statement of financial activities and explanatory notes. The accounts are prepared and audited in line with:

- Financial Reporting Standard (FRS) 102
- The current regulations and requirements of the ESFA, including the Academies Accounts Direction
- The Charities Statement of Recommended Practice (SORP) 2015
- Applicable charity and company law

The trustees are required to ensure that the trust's accounts are prepared in compliance with the Companies Act 2006. A departure from any of these basic accounting principles will require disclosure notes in the accounts together with the reasons for the departure. The accounting officer is responsible for ensuring that all reasonable controls are in place. Overall, the accounts must always give a true and fair view. This will be determined by the appointed external auditors.

#### **5. Accruals concept**

All income and expenditure for the period to which the accounts relate are included in those accounts. At year end, a de-minimis of £1,000 is applied for both sundry creditors and sundry debtors. Where an individual invoice or receipt is less than £1,000 then no accrual is made. This is to minimise the number of sundry transactions. In preparation for year-end an exercise is completed to ensure all invoices and debts are settled to minimise the necessity for provisions.

#### **6. Liabilities**

Liabilities are shown in the balance sheet where goods or services have been received but the payment has not been made during that period. Subject to the de-minimis value agreed, the value is that identified on the order or invoice or other contractual documentation.

#### **7. Provisions**

Provisions are shown in the balance sheet for obligations such as pension contributions, tax liabilities or other payments to similar funds or bodies where the payment has been deferred.

#### **8. Financial instruments**

The academy trust only holds basic financial instruments as defined in FRS 102. The financial assets and financial liabilities of the academy trust are as follows:

- Cash at bank, including all current and deposit accounts belonging to the trust
- Cash in hand, including any petty cash imprest and monies not yet banked
- Financial debtors, including all monies owing to the trust
- Financial liabilities, including all current commitments of the trust in terms of unpaid invoices and debts

#### **9. Historical cost convention**

The revenue, costs, and any assets bought by the trust, are recognised in the accounts at the original cost regardless of present value.

#### **10. Going concern**

The accounts are prepared on the assumption that the trust will continue to function in the future and is therefore a going concern. The trustees will assess if there are any material uncertainties related to events or conditions that may cast significant doubt on the ability of the trust to continue as a going concern. The trustees will make the assessment in respect of a period of one year from the date of the approval of the financial statements. If no such material uncertainties apply, then this will be stated.

## **11. Consistency**

The trustees have agreed on suitable accounting policies for depreciation of business assets, foreign exchange translation and accounting for stock valuation. These are applied consistently across the trust and over comparative financial years.

## **12. Prudence**

The accounts are prepared prudently. This means that only realised transactions are included in the income and expenditure statements. For example, income is included only where it is either received or its receipt is certain and applicable within the period. Debts are considered and only written off in accordance with ESFA regulations.

## **13. Netting off**

Items are not netted off in the accounts. The accounting system identifies all transactions and the financial procedures require that income and expenditure are fully recorded and not subject to netting off.

## **14. Accounting treatment of income**

All income is on a receivable basis.

All incoming resources are recognised when the academy trust has entitlement to the funds, the receipt is probable and the amount can be measured reliably. Grants receivable are included in the statement of financial activities (SOFA) on a receivable basis. Any balance of income received for specific purposes but not expended during the period is shown in the relevant funds on the balance sheet. Where income is received in advance of entitlement of receipt, its recognition is accrued and included in creditors as deferred income. Specific references are made for the receipt of the general annual grant (GAG), capital grants and any other grants with specific conditions.

Capital grants are recognised in full when there is an unconditional entitlement to the grant. Unspent amounts of capital grants are reflected in the balance sheet in the restricted fixed asset fund. Capital grants are recognised when there is entitlement and are not deferred over the life of the asset on which they are expended.

Sponsorship income (if applicable) provided to the academy trust which amounts to a donation is recognised in the SOFA in the period in which it is receivable (where there are no performance-related conditions).

Donations are recognised on a receivable basis (where there are no performance-related conditions).

Other income, including catering income and fees for breakfast and after school clubs, is recognised in the period it is receivable.

## **15. Accounting treatment of resources expended**

All expenditure is recognised in the period in which goods or services are received.

All expenditure is classified in the accounts under an appropriate heading to the type of goods or services purchased. In relation to the costs of generating funds, where a fundraising activity incurs expenditure in order to raise the income, this is clearly shown in the accounts. Large activities (e.g.

major fund raisers) are given a discrete cost centre for both income and expenditure to enable a trading account to be extracted for monitoring purposes.

Governance costs include the costs attributable to the trust's compliance with constitutional and statutory requirements, including audit, strategic management and trustees' meetings and reimbursed expenses. Resources are recorded net of VAT, with the exception of business costs where VAT is identified as irrecoverable. They are classified under headings that aggregate all costs relating to that activity. Where identified, costs incurred centrally on behalf of the academies of the trust are recharged for their proportion of those costs. The basis of proportion is determined for each type of cost incurred.

Where the expenditure is shared between more than one school within the trust, the cost is apportioned on a basis consistent with the use of those resources. Where specific support is given to an individual school, but the initial cost is borne centrally, then the whole cost is charged to the beneficiary school.

#### **16. Accounting for fixed assets**

Assets received on conversion or on transfer of an existing academy are valued at 'fair' value and recognised in the balance sheet at the date of transfer. Donated fixed assets are measured at 'fair' value on the date of receipt. Tangible fixed assets valued at £1,000 or greater are capitalised as tangible fixed assets and are carried at cost, net of depreciation. The value of assets is included in the balance sheet at cost and depreciated over their expected useful economic life. Intangible fixed assets costing value, e.g. £1,000 or greater are capitalised and recognised at cost and depreciated over their expected useful life. New freehold/leasehold buildings whose construction was overseen by the Department for Education (DfE) or a local authority (LA) and transferred to the academy trust on completion. During the construction phase:

- The DfE project team manages the site
- Construction costs are funded by the DfE
- There should be no recognition in the academy trust's financial statements
- If the academy trust is partly funding construction of the site (e.g. additional assets outside of the DfE's minimum design specification) then these costs should be shown as assets under construction in the financial statements.

#### **17. Depreciation**

Please see Trust depreciation policy included in the annual accounts.

#### **18. Leased assets**

Leased assets rentals under operating leases are charged on a straight-line basis over the lease term reflecting the payment terms.

#### **19. Investments**

Please see Trust Reserves and Investments policy

#### **20. Reserves policy**

Please see Trust Reserves and Investments policy

#### **21. Stock**

Any catering stock purchase by the academy is the property of Victoria Academies Trust. If the value of stock is greater than £1,000 it will be recorded on the balance sheet. Catering stocks purchased by third party providers are the property of the third-party catering provider. Uniform shop stocks are assessed and valued as at the last day of the financial year. Anything above £1,000 will be recorded on the year-end balance sheet.

## **22. Taxation**

The academy trust meets the definition of a charitable company for UK corporation tax purposes. The academy trust is, by definition, exempt from taxation in respect of income, capital gains and corporation taxes on the provision and understanding that all income and other gains are applied exclusively for educational purposes.

## **23. Pensions benefits**

The trust holds two types of pension benefits for its employees. The two schemes are provided by the Teachers' Pension Scheme (TPS) and the Local Government Pension Scheme (LGPS). These are defined benefit schemes, are contracted out of the State Earnings-Related Pension Scheme (SERPS), and the assets are held separately from those of the trust.

The LGPS is a funded scheme and the assets are held separately from those of the trust in separate trustee administered funds. The trust is liable for the "deficit" payment based on the annual actuarial value.

Actuarial reviews of the LGPS are conducted annually and recognised as a separate fund within the accounts.

The TPS is an unfunded scheme and contributions are calculated so as to spread the cost of pensions over employees' working lives. The TPS is therefore treated as a defined contribution scheme for accounting purposes and the contributions recognised in the period to which they relate.

## **24. Fund accounting**

Restricted general funds comprise income from any source where the funding is intended for a specific purpose. This includes all grants received from the ESFA and from any other funding body. Unrestricted income fund represent those resources which may be used towards meeting any of the charitable objects of the trust at the discretion of the trustees. Restricted fixed asset fund refers to income which is to be applied to specific capital purposes imposed by the ESFA or other funders where the asset acquired is for a specific purpose.

## **25. Monitoring arrangements**

**The board of trustees is responsible for the implementation of these policies. These policies are reviewed by the board of trustees on an annual basis.**

## **27. Links with other policies**

**These accounting policies are linked to the:**

- **Charging and remissions policy**
- **Procurement and tendering policy**
- **Reserves and investment policy**
- **Gifts and hospitality policy**
